

## SNORE SENSORS / MICROPHONES

### 1. Compumedics® Snore Microphone

Provides high sensitivity for accurate readings.

Product Description	Part Number
1.5mm Connector (E-Series) .....	7000-0058-00
Grael® Snore Microphone .....	7028-0002-01

### 2. Sleepmate® Snore Microphone

Low profile, provides high sensitivity for accurate readings.

Product Description	Part Number
1.5mm Connector .....	00103357

### 3. Sleepmate® Snore Sensor

Piezo technology records vibration associated with snoring.

Product Description	Part Number
1.5mm Connector .....	00103362

### 4. Braebon Snore Microphone

Lightweight sensor accurately transmits snoring sounds. Connects directly to AC headbox. 1.5mm Connector.

Product Description	Part Number
1.5mm Connector (0540) .....	00103457

### 5. Braebon Snore Sensor

Piezo Sensor technology with 1.5mm Connector.

Product Description	Part Number
1.5mm Connector (0542).....	00103458

### 6. Pro-Tech® Snore Microphone

Lightweight, smaller size for higher patient comfort. Provides a very quiet and stable baseline. Unique encapsulated design makes it less susceptible to moisture damage.

Product Description	Part Number
Female 1.5mm Connector (1716) ..	00103695

### 7. Pro-Tech® Snore Sensor

Pro-Tech's piezo snore sensor is one of the smallest snore sensors available, and it effectively detects snoring vibrations and generates clear and reliable tracings every time.

Product Description	Part Number
1.5mm Connector (1696) .....	00103699

### 8. SleepSense® Snore Microphone

Attaches to the patient's neck to provide clear, artifact free qualitative indication of snoring.

Product Description	Part Number
1.5mm Connector (SLP1200) .....	00103700

### 9. SleepSense® Snore Sensor

Attaches to the patient's neck to provide clear, artifact free qualitative indication of snoring.

Product Description	Part Number
Piezo Snore Sensor 1.5mm Connector (SLP1250) .....	00103703
